

## **Educator's Vault Lesson**

**Artist: Malaika Favorite**

**Grade Level: Elementary**

### **Inspiration:**

Review the four short videos of Malaika explaining her process, her work and support for artists found in AMoA's Educators Vault. Select the one most informative to your class.

Observe the artists image of *Eve Contemplating Her Future* from AMoA's Educators Vault.

### **Questions for Students:**

- Ask students if they understand the word contemplating.
- Do they understand the title?
- What other word could be used instead of contemplating?
- What do you think Eve's future might be?
- Is there something you may know about this picture to share with the class?
- Have you ever contemplated your own future?

### **Process:**

1. Have students draw a picture of themselves in the future.
2. They should include at least three images that relate to their future.

**Note:** I recommend the use of Crayola, Colors of the World: crayons, markers and colored pencils.
